When you need any kind of PRINTING or have an interesting new item. We are connected with Clay City, Mt. Sterling and intermediate points. No charge to telephone us from Clay City, as we have a privilege over this line. Our ring is two short and one long, thus: — — — — —

A young volunteer who served his time in the Philippines, vividly describes our oriental jewels thus: "The Filipinos are a bunch of trouble gathered together on the western horizon of uncivilization. They are bombed on the north by rocks and destruction, on the east by typhoons, on the south by cannibals and earthquakes, on the west by hoodlums and smugglers. The soil is extraordinarily fertile, producing large crops of insurrection and trickery. The climate is pleasant and healthful for scorpions, centipedes, snakes and alligators. The principal exports are rice, hemp, sick soldiers and war bulletins. The principal imports are American soldiers, arms, ammunition, cologne beer and tobacco."

Litigation over the consolidation of Central University, of Richmond, and Centre College, of Danville, has begun. Suit has been filed by the heirs of Mrs. Rebecca Shearer for \$3,000. Mrs. Shearer gave \$1,000 to the erection fund of the University and another amount the interest of which has been used in educating young men of that county. The fund has now reached the amount sued for, and the heirs claim they are entitled to it as the object for which it was given has been thwarted by the removal of the University.

The young man who knows how to lay off corn and potato rows, and to regulate the distance of the same so as to get the crops, is worth a cow pen full of nice, kid gloved, fancy overcoated fellows who know how to lead a fashionable waltz. Setting a plow just right and adjusting the gears so that backs and shoulders of the horses will never hurt, are worth a thousand fold more to the country than knowing how to pose in the parlor. Yes, and a girl who can bake a loaf of bread and make a sweet roll of butter is worth a whole seminary of those soft hand angels who sit in the "pahlah" and let their "mas" do the kitchen work.—Ex.

Spencer Cooper, publisher and editor of the Hazel Green Herald, and a veteran newspaper man is getting out one of the best country newspapers we ever read. Notwithstanding his ceaseless and untiring efforts to build up his town, he is not patronized by a single home merchant with an advisement. Seems like they are

willing for this enterprising publisher to do it all in the way of upbuilding their town. It is truly hard for a paper to exist without advertising patronage from home people, and Editor Cooper certainly deserves a better patronage from the business men of Hazel Green than he is getting.

4th of July Fight.

At a Fourth of July dance at Morehead, Hugh Davis, of Morgan county, was fatally shot by a man named Flannery, of Elliott county. Davis was carried to the Osborne Hotel. Howard Moore, of Bath county, was stationed at the door to keep the crowd back and words passed between him and Fin Tolliver. Tolliver drew a knife and stabbed Moore in the abdomen, inflicting a serious wound. Both of the wounded men are in a critical condition.

TO THE DEAF.

A rich lady, cured by her deafness and noises in the head by Dr. Nicholson's Artificial Ear Drums, gave \$10,000 to his Institute, so that deaf people unable to procure the Ear Drums, may have them free. Address No 4594. The Nicholson Institute, 780 Eighth Avenue, New York. 5-29

A Large Fish.

While Tuck Sowers, of Madison county was fishing in Kentucky river, a few days ago, he hung a monster fish on a trot line. It pulled the skiff up and down the river for several hundred yards. Finally, the fish being worried, came to the surface and floated for awhile. As Sowers made the attempt to haul it into the boat, it floundered about, breaking the trot line and escaped. It was of the sturgeon variety, and looked to be fully seven feet long.

A Cup of Good Coffee

To get a really good cup of coffee you'll have to start back of the actual making; you'll have to look to the roasting and the grinding. In ARBUCKLES' you have a coffee that's scientifically roasted, and delivered to you with all the pores of the berry hermetically sealed. You're sure of a good cup of coffee because all the coffee flavor and aroma are kept intact until you want it. The fame of ARBUCKLES' induced other coffee packers to put out imitations of it. These imitations cost the grocer (and you) a cent a pound less than ARBUCKLES'. But don't be tempted to buy a package of some other coffee when you can get

Arbuckles' Roasted Coffee

for it is actually less expensive than the cheap kind; goes further—besides being better flavored, more satisfying.

You will find a list of useful articles in each package of Arbuckles' Coffee. A definite part of one of these articles becomes yours when you buy the coffee. The one you select from the list will be sent you on condition that you send to our Notion Department a certain number of signatures cut from the wrappers.
